EDUCATION

B.A. Physics, B.A. Astrophysics, University of California, Berkeley 2016—2020 (*projected*)

Major GPA: 3.877 · Overall GPA: 3.853 · *Honors to Date*

Research Interests computational fluid dynamics, extrasolar planets, protoplanetary disks

Relevant Coursework *Undergraduate:* Statistical and Thermal Physics, Quantum Mechanics I-II, Classical Mechanics, Mathematical Methods in Physics, Stellar Physics

Graduate: Classical Electrodynamics, Radiative Processes in Astrophysics, *General Relativity, Geophysical and Astrophysical Fluid Dynamics*

Italics denote in-progress coursework.

RESEARCH

Undergraduate Researcher, University of California, Berkeley 2018—

Advisor: Jeffrey Fung

Devised a model to explain the observed morphology of the transition disk PDS 70, and tested it with the GPU-hydrodynamics code PEnGUIn. Subsequently, using PEnGUIn to investigate other topics in disk dynamics.

Affiliate, Lawrence Berkeley National Laboratory 2017–18

Advisor: Carlton Pennypacker

Studied theoretical/computational models for the production and destruction of interstellar dust across cosmological time.

Undergraduate Researcher, Columbia University (remote) 2016

Advisor: David Kipping

Simulated transits of extrasolar moons in circumbinary systems, as well as the transit-timing variation (TTV) and transit-duration variation (TDV) they would induce in host planets, and analyzed data from the *Kepler* space telescope to compare.

PUBLICATIONS

1. Muley, Dhruv; Fung, Jeffrey; van der Marel, Nienke. “PDS 70: A transition disk sculpted by a single planet,” *The Astrophysical Journal Letters* (in prep.)

TECHNICAL SKILLS

Advanced	Python, Unix
Intermediate	L ^A T _E X, Mathematica, Java, C++
Basic	HTML, JavaScript, Photoshop, MPI

TEACHING

Reader , Physics 137B, University of California, Berkeley Professor: Alex Filippenko Graded roughly 30 homework assignments per week for Physics 137B, the second semester of upper division quantum mechanics at Berkeley, during Spring 2019.	2019
Undergraduate Student Instructor , Astronomy C10, University of California, Berkeley Professor: Alex Filippenko Ran weekly discussion sections, devised worksheets and study materials, and graded exams for approximately 60 students in Astronomy C10, UC Berkeley's survey course on astronomy for non-majors, during the Fall 2018 semester.	2018
Reader , Astronomy C10, University of California, Berkeley Professor: Alex Filippenko Graded roughly 100 homework assignments per week for Astronomy C10.	2017

TALKS AND CONFERENCES

"PDS 70: A transition disk sculpted by a single planet," <i>UC Berkeley Astronomy Lunch Talk</i>	2019
--	------

OUTREACH

Mentor , Be a Scientist program, Martin Luther King Jr. Middle School, Berkeley Advisor: Darlene Yan Worked with students in Berkeley aged 11-14 to develop scientifically testable hypotheses, devise and conduct experiments, and analyze results.	2018
---	------

LANGUAGES

English	Fluent; professional working proficiency
Spanish	Professional working proficiency
Marathi	Basic
